Un repaso rápido a CSS con

<http://www.w3schools.com/cssref/>

(color, border, margin, padding, background, ...,
width, z-index, position)

Analizando las páginas desde el navegador

The screenshot shows a web browser window with the address bar displaying `localhost:8080/InvierteEnNasdaq/`. The page content includes a heading **Bienvenido al sistema de entrenamiento de inversiones** and a form with the text **Introduzca la cantidad de dinero que va a invertir** and a text input field containing `$20000`.

The browser's developer tools are open, showing the **Elements** panel on the left and the **Styles** panel on the right. The **Elements** panel shows the following HTML structure:

```
<!DOCTYPE html>
<html>
  <head>...</head>
  <body>
    <h1>Bienvenido al sistema de entrenamiento de inversiones</h1>
    <form class="miestilo" style="margin-top:20px" action="play.jsp">
      <span>Introduzca la cantidad de dinero que va a invertir</span>
      "
      $"
      <input type="text" name="saldo" value>
    </form>
  </body>
</html>
```

The **Styles** panel shows the following CSS rules:

```
element.style {
  margin-top: 20px;
}

h1, form.miestilo {
  color: white;
  background-color: gray;
  border-bottom: 1px solid red;
  padding: 20px;
  margin: 25px 20% 0px 20%;
}

form {
  display: block;
  margin-top: 0em;
}
```

The **Styles** panel also includes a box model diagram showing the following dimensions:

- margin: 20
- border: -
- padding: 20
- width: 502.955 x 24.545
- height: 20
- total width: 180.980
- total height: 4.545

The **Elements** panel also shows the breadcrumb `html > body > form.miestilo` and the **Find in Styles** search bar.
