

**¿DE QUÉ HERRAMIENTAS DISPONGO
PARA DESARROLLAR EN JAVA?**

ated Development Environments) para desarrollo en Java

ECLIPSE (.org)

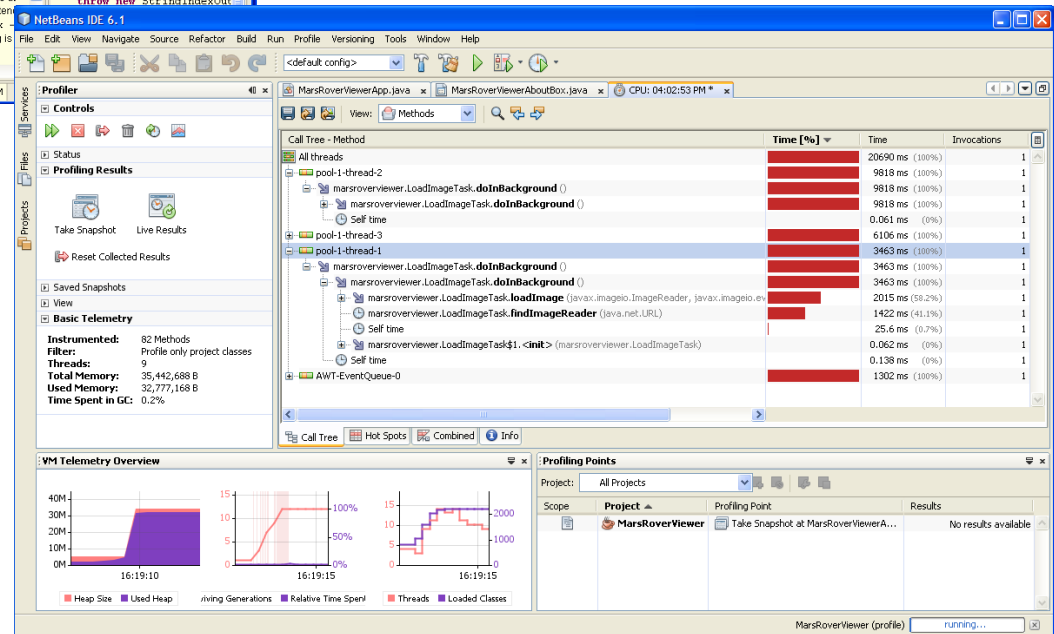

Comunidad de desarrollo en código abierto

Proyectos enfocados al desarrollo de una plataforma de *marcos extensibles, herramientas* y ejecutables para construir, implantar y gestionar software a lo largo de todo su *ciclo de vida*.

Un “vibrante” y “amplio” ecosistema de grandes fabricantes de tecnología, innovadoras start-ups, universidades, instituciones de investigación y particulares.

NETBEANS(.org)

Un IDE de código abierto gratis para desarrolladores de software. Proporciona todas las *herramientas* para crear aplicaciones profesionales de sobremesa, de empresa, web y móviles, con Java, C/C++, y Ruby. NetBeans es fácil de instalar y usar de inmediato, y corre en numerosas plataformas incluyendo Windows, Linux, Mac OS X y Solaris.

Hay otros IDEs. Una defensa de Netbeans (desde el desconocimiento del resto)

-El slogan de **Netbeans** es “The only IDE you need!”, y probablemente no sea sólo un slogan sino una verdad absoluta.

Eclipse puede ser comparable a **Netbeans** (¿superior?), pero su modelo de desarrollo es comercial, por lo que nos podemos encontrar con que una determinada capacidad que nos resulte interesante sea de pago (Actualmente no se exige el “ánimo” comercial y se sigue un esquema mixto)

IntelliJ IDEA es otro gran contendiente desde que fue elegido por Google como soporte para desarrollo para Android. Esta fabricado por una compañía privada por lo que tiene sus ventajas (más conexo, menos caótico) y sus inconvenientes (menos comunidad de desarrollo, modulos de pago)

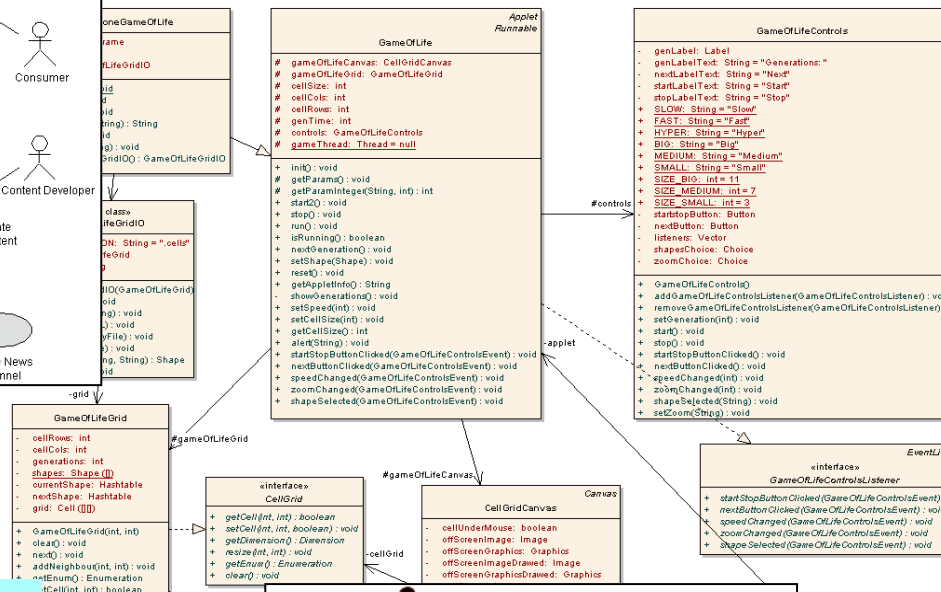

-**Jbuilder** fue importante hasta hace unos años al destacar en varios aspectos (p.ej. integración de UML), pero los esquemas de desarrollo en comunidad de **Netbeans** y **Eclipse** lo han superado (sin dejar de ser un buen entorno)

- **Java Studio** es el IDE de SUN. Los padres de la tecnología Java han luchado siempre por liderar la oferta de entornos de desarrollo para Java con interesantes iniciativas y con dedicación de medios, pero su éxito ha sido más bien escaso. Su propia consciencia de este hecho les ha llevado, desde hace varios años, a apoyar **Netbeans** “oficialmente” (es el IDE descargable como “bundle” con el kit de desarrollo de la web de SUN) sin que hayan renunciado a su propio sistema (¿?)

The screenshot shows the Oracle Technology Network website for Java. The top navigation bar includes the Oracle logo, a search bar, and links for Sign In/Register, Help, Country, Communities, I am a..., and I want to... Below this is a secondary navigation bar with links for Products, Solutions, Downloads, Store, Support, Training, Partners, and About, along with an OTN button. The main content area features a large image of two women looking at a laptop, with a text overlay for 'JavaOne San Francisco' and a registration link. To the right, there is a 'Software Downloads' section with 'Top Downloads' and 'New Downloads' lists. The 'Top Downloads' list includes Java SE, Java EE and GlassFish, JavaFX, Java ME, JDeveloper and ADF, Enterprise Pack for Eclipse, NetBeans IDE, and Pre-Built VM for Java Devs. The 'New Downloads' list includes Java SE 8 Update 101/102, Java SE Embedded 8 Update 77, Java CPU and PSU Releases Explained, and Oracle Java ME Embedded 8.2. A 'Java Downloads' button is at the bottom of this section.

The screenshot shows the Oracle Java SE Downloads page. The top navigation bar is identical to the previous screenshot. The main content area has a breadcrumb trail: Oracle Technology Network > Java > Java SE > Downloads. Below this is a sidebar with a list of Java products. The main content area has tabs for Overview, Downloads, Documentation, Community, Technologies, and Training. The 'Downloads' tab is active, showing 'Java SE Downloads'. There are two download buttons: 'Java Platform (JDK) 8u101 / 8u102' and 'NetBeans with JDK 8'. An arrow labeled 'Modo 2' points to the Java Platform button, and an arrow labeled 'Modo 1' points to the NetBeans button. Below the buttons, there is a section for 'Java Platform, Standard Edition' with a description of Java SE 8u101/8u102. On the right side, there are sections for 'Java SDKs and Tools' and 'Java Resources'.
